

Dear Business Client

TelOne notes the announcement of a rate of exchange between the United States Dollar (US\$) and the RTGS Dollar.

We further note and point out that our tariffs and charges are currently denominated in the US\$. With this observation, TelOne would like to advise that our tariffs and charges will remain unchanged in US\$.

We will however, now have tariffs and charges indicated in RTGS \$ effective 1 April 2019.

For your convenience we will be issuing out invoices in both US\$ and RTGS\$. Your Account Manager will engage you further to arrange for your preferred payment option. For more information you may call (024) 2251510.

Thank you for your valued custom and continued support.
